

AARAV MEHTA

Frontend Engineer • Bengaluru, India • aarav.mehta@example.com • +91 98765 43210 • github.com/aaravmehta

PROFESSIONAL SUMMARY

Frontend engineer with 2.5 years of experience building production web applications with React, TypeScript, and modern JavaScript. Strong background in component architecture, REST API integration, state management, performance optimization, and collaborative Git workflows. Enjoys turning complex product requirements into accessible, maintainable interfaces.

SKILLS

EXPERIENCE

Frontend Engineer — Northstar Commerce

Bengaluru, India | Jul 2023 – Present

- Built and maintained React and TypeScript features for a multi-tenant e-commerce dashboard used by operations and merchandising teams.
- Designed reusable component patterns and reduced duplicated UI code across three major product areas.
- Integrated REST APIs for orders, inventory, and customer data using React Query and Axios.
- Improved dashboard load performance by introducing route-level code splitting, memoization, and optimized data fetching.
- Collaborated with designers and backend engineers through GitHub pull requests, code reviews, and feature branches.

Frontend Developer Intern — PixelForge Labs

Pune, India | Jan 2023 – Jun 2023

- Developed responsive React pages for an internal analytics platform.
- Implemented reusable forms, tables, filters, and API-driven dashboards.
- Added unit and component tests using Jest and React Testing Library.

PROJECTS

CartPilot — React, TypeScript, REST APIs

Built an e-commerce admin dashboard with product management, order tracking, role-based views, filtering, pagination, and API error handling.

SpendScope — React, TypeScript, Charting

Created a personal finance dashboard that categorizes transactions, displays monthly spending trends, and supports budget tracking.

EDUCATION

B.Tech in Computer Science and Engineering — PES University

2022 | Bengaluru, India

CERTIFICATION

Meta Front-End Developer Professional Certificate — 2023
